Profile

Front-end Developer with hands-on experience building production-ready web applications using React.js, Next.js, and Typescript. Proven ability to deliver responsive, SEO optimized solutions with modern UI patterns, API integration, and clean code architecture.

Education

- BCA, Computer Application | Nagarjuna College of IT (TU affiliated) | 2021 - Present
- +2 Management | Molihss College | Graduated 2021 | GPA: 3.49
- SLC | Eden Garden Secondary Boarding School | Graduated 2019 | GPA: 3.4

Experience

Next.js Developer Internship (Remote) | Inflancer Technology, Lalitpur | Aug 2025 - Nov 2025

- Built production-level apps using Next.js, Typescript, Tailwind CSS, Framer Motion for animations with smooth user interactions and performance.
- Implemented comprehensive SEO strategy including robot.txt, XML sitemaps and metadata optimization for improved search visibility.
- Created multilingual public health website (Nepali/English) using next-intl and App Router.
- Built Admin Dashboard and CMS with Redux Toolkit, RTK Query, Tailwind, Shadcn/ui, RHF.
- Collaborated with backend team to integrated REST APIs and optimized CMS workflows.

Front-End Development Internship | Plutonic Tech, Kathmandu | Feb 2024 - Apr 2024

- Developed a personal e-commerce project from scratch using React.JS, Context API and SCSS, implementing features like product filtering, wishlists and a responsive UI.
- Enhanced WordPress website UI/UX using bootstrap and vanilla JavaScript for engagement.
- Supported CRM front-end architecture & interaction flow.

Projects

Popcornpix | Movie Discovery Platform

React.js, Typescript, Supabase, TMDB API, React Query, Shadcn/ui, Google OAuth

Modern entertainment discovery platform offering seamless movie and series exploration with personalized user experience.

- Integrated TMDB API for real-time movie data with efficient caching using React Query.
- Implemented secure authentication system with Magic Link and Google OAuth using Supabase.
- Built custom state management solution with Context API and optimized custom hooks.
- Developed responsive component library using Shadcn/ui with modern design patterns.
- Implemented form validation and error handling using React Hook Form.
